LEVEL: EASY

MOMMY

Just about every parent has had the "I love you more than . . ." conversation. It normally starts with outstretched arms and escalates to "I love you more than there are stars in the sky." But what if you could stretch your arms farther apart? Well, now you can.

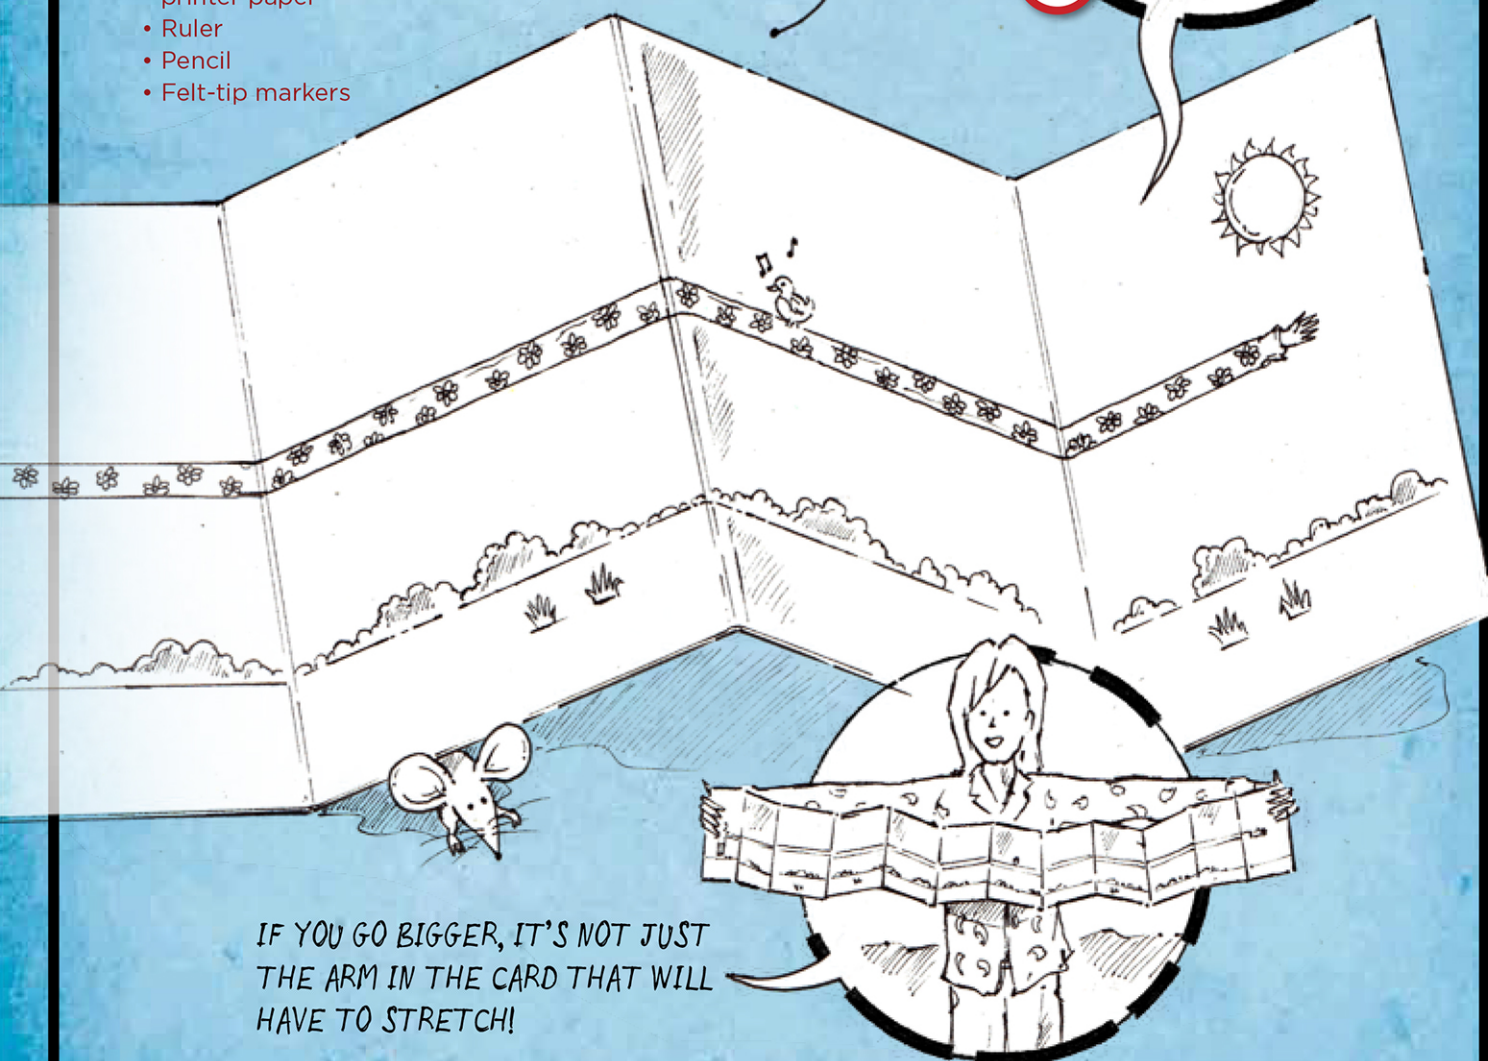

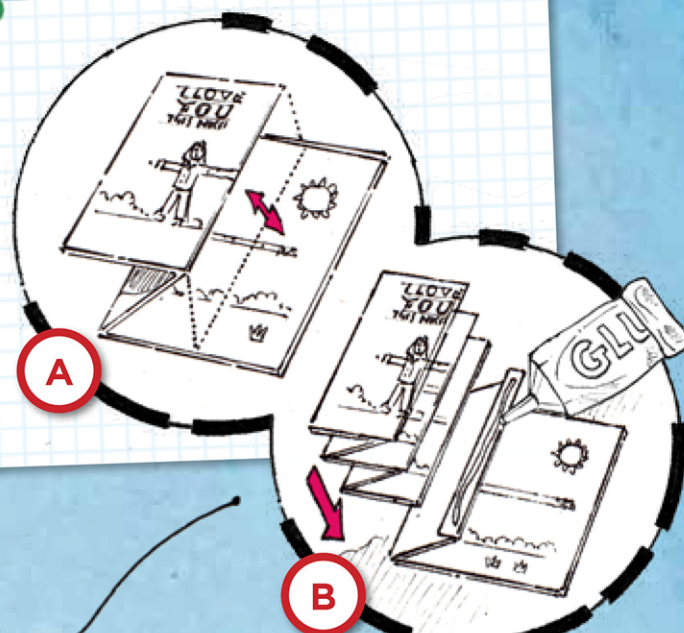

HOW MUCH LOVE

DO YOU HAVE?

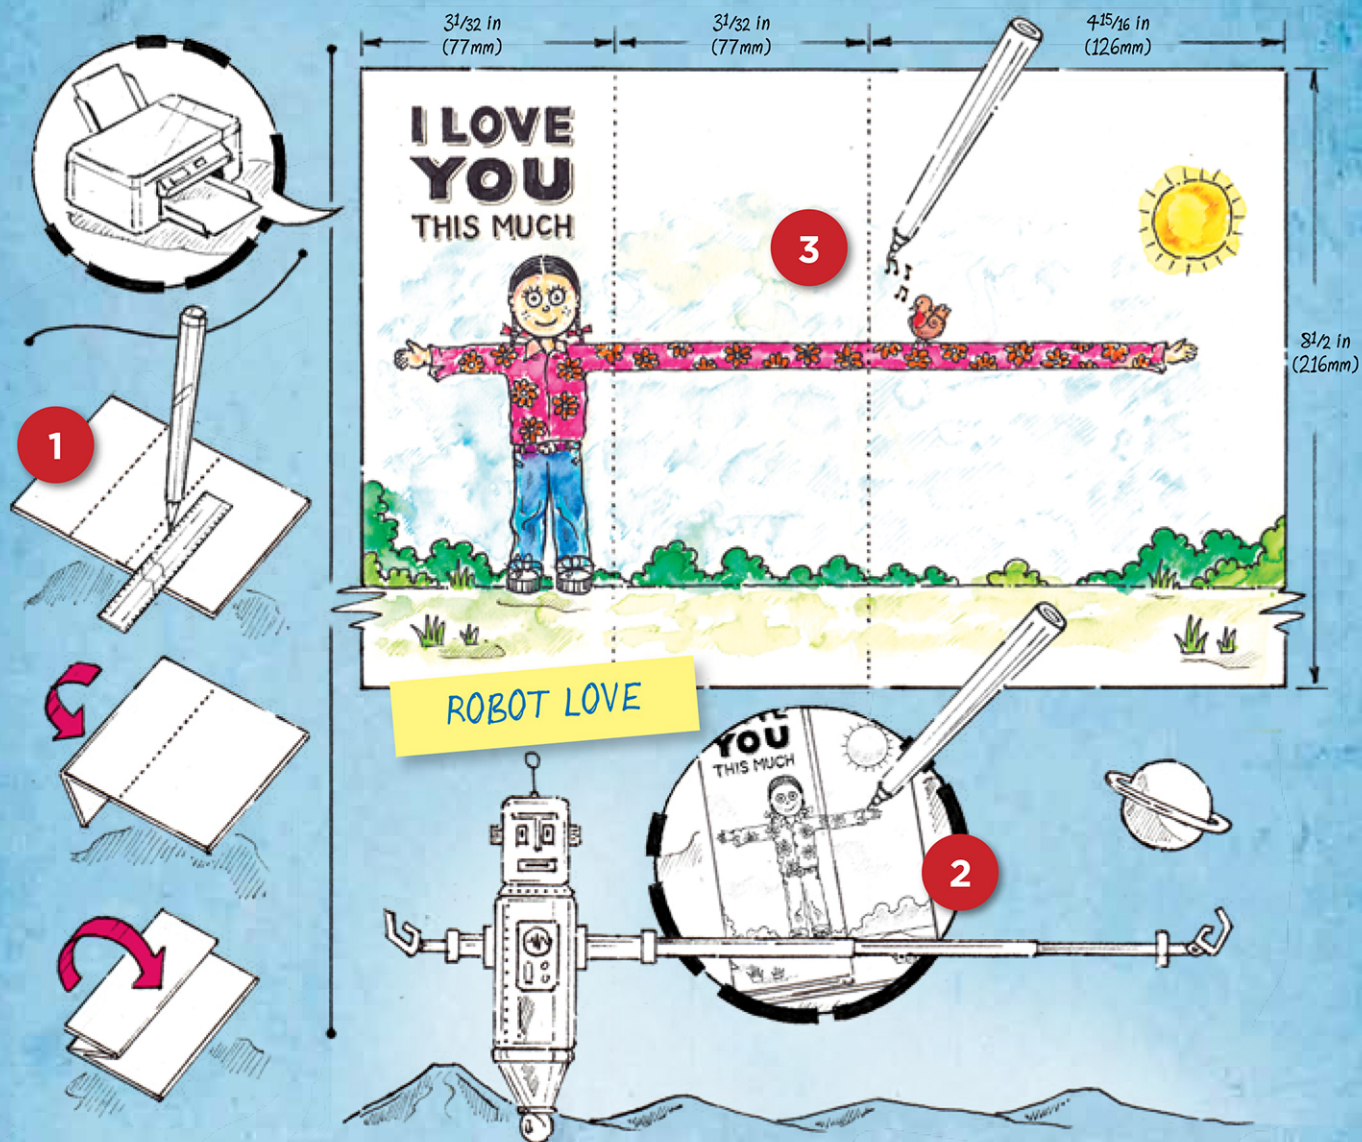

**PRO-DAD TIP:** We're going to make the version shown in the photograph (A), and that's a lot of love, but feel free to up the love even further by using more than one sheet of card (B).

### MATERIALS

- White lightweight cardstock or printer paper
- Ruler
- Pencil
- Felt-tip markers

IF YOU GO BIGGER, IT'S NOT JUST THE ARM IN THE CARD THAT WILL HAVE TO STRETCH!

1. Measure and mark two fold lines on the cardstock as shown in step 3 and accordion fold along the lines (or download and print the template from [workman.com/madebydad](http://workman.com/madebydad), fold it, and skip to step 3).

2. Draw a picture of a person (or a robot, or a friendly monster, or ...) on the front panel, with one arm extending past the fold to the back panel (or the far right panel, when unfolded). Write the words, "I Love You This Much" on the front panel.

3. Unfold the card and Join the right arm to the far right extension of the arm through the center panel. Then color in the card, personalize it however you'd like, refold it, and go deliver it!
